

## The HACCP Plan – Part B

1. Using suitable examples, outline 2 resources that the HACCP team are likely to require when conducting a hazard analysis and describe their relevance. (6 marks)
2. Describe the purpose of the terms of reference/scope of a HACCP study, making reference to 4 key elements. (8marks)
3. With the use of 3 relevant examples, briefly describe the purpose of prerequisite programmes. (9marks)
4. Outline 5 things you would take into account when selecting HACCP team members for a business. Give reasons for your answers. (10 marks)
5. Identify 3 common problems that can occur when developing a flow diagram and, for each, explain how it can affect the development and suitability of the HACCP plan. (9marks)
